

# Goanna – Software Bug Detection

Contact: Ralf Huuck , [ralf.huuck@nicta.com.au](mailto:ralf.huuck@nicta.com.au) (02) 8306 0572

We bring higher quality software to market faster by detecting C/C++ software bugs automatically at development time.

## At a Glance

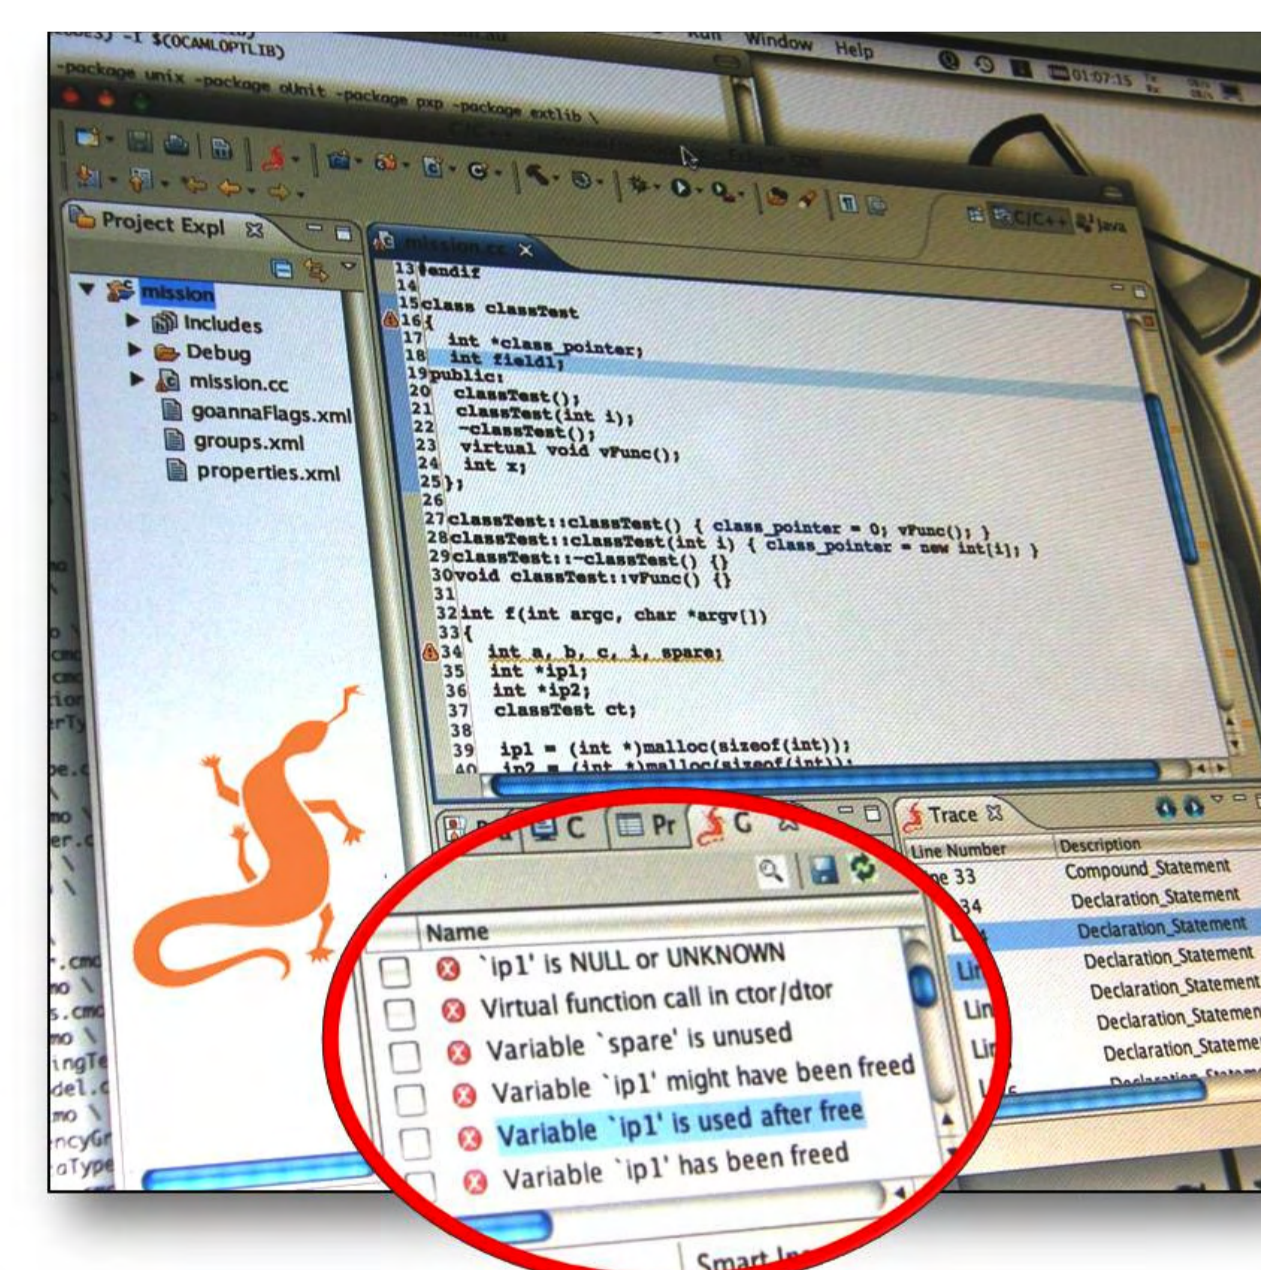

- Detects bugs in C/C++ code, memory leaks, crashes etc. automatically
- Saves software development costs and time.

## What's Under the Hood

- Fast static analysis engine
- Precise model checking
- Scalable to large projects
- Tightly integrated with
  - Microsoft Visual Studio
  - Eclipse CDT
- Free download at [www.redlizards.com](http://www.redlizards.com)

## Looking Ahead

- Latest NICTA spin-out
- Growth and market potential
- Demonstrated customer base
- Undertaking venture investment.
